Attention: Registered Workshop Participants

Dear Sirs/Madams;

Re: LBN Community & Economic Development Workshops 2007

Enclosed for your review and follow up is a report on the workshop you attended in your respected community.

The information gathered is valuable to the start of developing a community based approach in planning short and long term goals.

I have notified our Leadership and my colleagues at the Administration level by providing them a copy of this report so that they in turn are aware of its contents and the work that you provided.

As suggested at the workshop, this is your information and your commitment to work with this information will be the key to succeeding.

If you need any clarification on this, contact me.

Sincerely yours,

Frank Alec,  
General Manager
